LETS TAKE A LOOK AT THE DEVASTATING NUMBERS...

THESE EVENTS ARE INCREASING, BECOMING DEADLIER AND AFFECTING MORE VICTIMS

NO ENTITY IS IMMUNE, NO STATE IS IMMUNE

A workplace violence event is the perfect storm for revenue loss & liability. This form of coverage is not what any business should ever have to consider, but these types of events are increasing. PLIS, Inc. has designed a multi-faceted stand-alone product to address this growing area of risk. All businesses are vulnerable, whether it is a casual office setting or an establishment with late hours and frequent customers. Injury is an obvious potential loss, but residual community concerns may impact revenue and future growth.

Standard insurance policies may not provide the relief for a depleted revenue stream with related costs because there is no direct covered peril to trigger those policies. The policy provides four (4) types of coverages for these events and includes a 24/7 Crisis Management Resource to manage chaos during an unfolding event. SRM can also provide plans/procedures before a potential event.
